## Overtime pay for firefighters OK'd Selph makes policy change

Mayor Ron Selph has made a policy hange at the Granite City Fire Depart-

change at the Granite City Fire Department.
On days when the department is shorthanded due to illness or injury, the city will call out a man for overtime pay to ensure that the equipment is manned.
The city's current contract with the freighters requires a specific number of men to be on duty for each piece of apparatus.
Mayor Von Dee Cruse decided last year that, if the department was a man short,

Mayor Von Dec Cruse decided last year that, if the department was a man short, the city would take a piece of equipment out of service rather than call a man out for overtime.

Alderman Craig Tarpoff, chairman of the aldermanic Fire and Water Committee, said that expenses were also successful to the committee of the committee o

## TIF tiff: School, city debate districts' value

By Bob Slate
Staff writer

City and school officials have differing opinions about the value of TIF districts.

A Tax Increment Finance district is a development tool for blighted areas. When a TIF district is formed, the district is "frozen" at its existing level.

Any future property tax money above the freeze level is withheld from other taxing bodies in the district and rebated. The rebated funds can be used for improvements in the TIF district. Similarly, any increased sales taxes collected in a qualifying TIF district are Norman Owca, director of finance for the Granite City School District, estimates that the school district lost more than \$146,200 in revenue to the district in tax year 1998. Owae said the school district could
lower its tax, rates on some funds if the
property tax revenues were not diverted

#### Toll collector fired

Staff writer

A McKinley Bridge toll collector was fired Thursday after the Venice City Council found that failure to perform his duty had resulted in major shortages in toll receipts from shifts he worked. Following a four-hour hearing, George Wilson was found guilty by the council on eight counts relating to failure to perform his duties. After finding Wilson guilty, the aldermen voted 7-0 to terminate his employment. Alderman Henry Fletcher was absent. The specific allegations, filled by Acting Bridge Manager Tyrone Q. Echols, included:

ot, humid days of summer may be a real reat for those with backyard pools and brand new air conditioners. But for the gardener trying to maintain an attractive flower bed, the scorchers can be a big the days of the scorchers and the stryling to maintain the scorchers can be a big the scorchers. headache. And the sizzling weather is not too far away.

But don't despair! There are many varieties of annuals and perennials that will do just line in those parted areas ine in those parted areas of a list of the perennial in the all states of the perennial in the perform best under hot, dry conditions.

Begonia - Fibrous or wax Begonia - Fibrous or wax Native to the tropics, these plants have either green or bronze foliage. Once estab-lished, they are durable and need less water than other annuals. They re reliable performers in full sun to partial shade. Flower colors are pink, rose, white and bi-colors.

Célosia - Plumosa and cockscomb
Children are attracted to these plants because the flowers don't look like ordinary flowers. Colors range from cream to plant to crimson. Height ranges from 6 inches to 4 feet, and the taller varieties can be used as cut flowers.

Cleome - Spider flower
This tall plant is native to
the Caribbean and thrives in
hot, dry conditions. It can
reach up to 6 feet tall in full
sun if given enough water and
nutrients. Golors are limited
to violet, rose and white.

Coreopsis - (C. grandiflora - perennial; C. tinctoria - annual)
Native to North America, these yellow or red daisy-like flowers will grace a garden during summer and fall.

Cosmos - Mexican aster
Native to Mexico, these
plants range from a dwarf
form of 12 inches in height to
a bushy 6 feet tall. Very heat
and drought tolerant, cosmos,

Globe AmaranthGomphrena
This annual is native to the tropics and is a wonderful everlasting flower. There are dwarf varieties, as well as taller ones that reach up to 2 feet. New colors include layender, rose, pink and strawberry.

Morning Glory - Ipomoea Native to the tropics, this annual vine is best grown from seed. A vigorous plant, Morning Glory needs a trellis or vertical support - it can reach 8 to 10 feet. The delicate-looking single flowers unfurl each day. Flower colors are white, blue, pink or red.

Petunia
These popular annuals
thrive in drought conditions
once the plants are established. Native to Argentina,
petunias are available in a
rainbow of color choices

Portulaca - Moss rose
This hardy annual has distinctly round, fleshy leaves
like a succulent. Native to
South America, portulaça
plants need little water once
established. The tissue

## Children love to snack, need healthy extras for nutrients

By Patricia Abels Registered Dietitian American Heart Association St. Louis Chapter

"It's no secret that children love to snack and that parents go crazy trying to steer them toward good snacks," says Anne Reject-Scholtz, registered dietitian with the American Heart Assistation St. Louis Chapter Assistation St. Louis Chapter snacking is important for children: The trick is figuring out what they will eat that is good for them."

what they will eat that is good for them."
Rejent-Scholtz speaks from experience in working with chil-dren — and as the mother of two school-age children.
She explains that snacking has

gotten bad press — not com-pletely undeservedly. "Children who regularly snack on greasy potato chips, ice cream and cookies often end up eating way too much fat and not enough vitamins and minerals. This sets them up for major problems — overweight, high blood cholesterol and high blood pressure," she says.

Snacking is far from bad though. In fact, wise snacking helps children get calories and other nutrients they need to grow well without getting too

Rejent-Scholtz explains that most parents are surprised to learn how many calories and nutrients their children really need.

nutrients their children reausneed.
"The average child between seven and 10 needs about 2,000 calories per day. Children between 11 and 14 need more—reboys. Children also need about 50 nutrients every day. Without nutritious snacks, it is hard to get all those nutrients into little bodies in just three meals," she says.

Snacking is particularly impor-tant for children who have small appetties at mealtime.

"My daughter is a small child. She just can't eat much in one sitting. Snacking on foods that supply lots of nutrients is a life-saver for her."

#### Senate committee backs bill barring mandates

An Illinois Senate committee is backing state Sen. Frank Watson's proposals for a constitutional amendment barring state mandates on local government. Assembly and Illinois members of Congress to talk about federal mandates on state government. "I have been battling mandates as long as I have been saving in Springfield," saving in Springfield, "saving in Springfield, "saving in Springfield," saving in Springfield, "saving in Springfield, "saving in Springfield," saving in Springfield, "saving in Springfield, "saving in Springfield, "saving in Springfield," saving in Springfield, "saving in Springfie

feederal government should not mandate programs or activities for another level of government unless it also provides the funding for them. Executive Committee has approved Watson's Senate Joint Resolution 37 requesting a meeting between state legislators and Illinois members of Congress to discuss federal It also approved House Joint Resolution 14, which would make unfunded. state mandates on local governments unenforceable, unless they are passed by houses and are specifically characterized as nonreimbursable. The measures now go to the full Senate for consideration. "I am hopeful that these two measures will begin to solve the

problem of mandates and the increased costs involved for our taxpayers." Watson said. "I am disappointed that school distributions were in another mandate measure I introduced. However, this is impossible because they are not defined in our Constitution as a unit of local government.

#### A Mammogram: A Picture That Could Save Your Life

One in nine women will develop breast cancer at some point in her life, but mammography can help you beat the odds.

If someone told you that simply having your picture taken could save your life, would you do it? Of course. A mammogram, which can detect breast cancer in its earliest stages, is just that - - - a picture - - - an x-ray of the breast that can save your life.

Memorial's Mammography Center offers state-of-the-art diagnostic equipment and skilled personnel for complete screening services and test interpretation by board-certified radiologists in a private, comfortable and convenient setting. Memorial's program is accredited by the American College of Radiology and recognized by the American Cancer

Society as an ACR-accredited facility.
This means Memorial's Mammography
Center maintains the healthcare industry's most recognized accreditation for consistently following strict guidelines for low-dose, high-image quality.

Don't fear the results of a mammogram. With today's effective treatment options, up to 90 percent of women with breast cancer can beat the odds when it is found and treated early.

For an appointment or more information about this cost-effective, life-saving exam, call Memorial's Mammography Center at 233-7750, extension 5065.

#### FOOD LOVERS DIET

FOOD LOVERS DIFT
To introduce a new approach to dieting, free diet pills were given to
50 people. With The Omicron Diet, one man lost 14 pounds in 5
days and one woman lost 14 pounds in 10 days. The average weight
loss was over a pound a day for women and over 2 pounds a day for
men. The Omicron Diet is a revolutionary new concept for unbeilevably fast weight loss developed and clinically proven by National Dietary Research of Washington, D.C. This significant breakthrough in metabolic weight control was made possible by the utilzation of biological information over-looked by other diet programs.
With a formulation of natural enzymes along with real food, you
shed unwanted pounds extremely rapidly and safely. Now available:

## Script grounds 'Cliffhanger

Correspondent

Some frighteningly realistic action scenes, high in the rugged peaks of the Rocky Mountains, get Sylvester Stallone's new action-escape film "Clifftanger" off to an exciting start.

As directed by Renny Harlin, whose credits include "Nightmare On Elm Street IV and the start of the start o

light-headed script seems to be dizzy from the altitude of its story and the stationary from the altitude of its story. Stallone plays Gabe Walker, a rescue expert on a team in the Rocky Mountains. Gabe fails to save a young woman left dangling on a rescue line, and she fails 4,000 feet to her death. Gabe rettres from the learn and moves to Denver.

Seven months later, Gabe
